**Number of handlers required:** 2 each ornament

---

## Other Interesting Facts:

In the 1800's, glass makers began blowing glass into molded shapes intended specifically for Christmas Trees. If you tried to blow an ornament as big as one of these 10' beauties, you'd need to have a lot of lung power—each bauble is filled with 600 cft of helium! These spheres are a glowing example of Christmas cheer.
