## Other Interesting Facts:

This giant parrot, at a whopping 70 feet tall is definitely nothing to squawk at! Each of his wings is 35 feet long. An average Red Macaw Parrot eats about 12 ounces of food per day – if this parrot were real, he's eat over 20 tons of food each day! Even though this “Real Macaw” is a bit out of his topical climate today, at seven stories high, he fits right in with the skyscrapers.
